

Upcoming Changes to the 2019-20 ELPA21 Summative

K-1 Writing Supplement Elimination

The ELPA21 Summative assessment no longer uses the K-1 Writing Supplement. The Writing domain will consist of all machine-scored items for Kindergarten and Grade 1.

The updated Writing domain results will still provide you with the same data and information as in previous years.

Paper Ordering through ELPA21 Help Desk

This year, orders for paper, large print, and braille materials will be taken through the Help Desk instead of through TIDE.

If you are a District Test Coordinator, simply call the ELPA21 Help Desk during ordering windows and provide your contact information, material quantity, and shipping information to place your order for materials. Our agents can provide tracking information when it is available.

Please contact the ELPA21 Help Desk if you have any questions.
