

# The New AIRWays Reporting System

## Information for Your Schools and Teachers

1

### Why are we moving to the new AIRWays Reporting System?

The AIRWays Reporting System will replace the Online Reporting System (ORS) at the end of September and will offer a more user-friendly interface that provides teachers and administrators with results for screener and summative assessments in a single system.

#### The AIRWays Reporting System provides:

- Secure access to student data
- Results for summative and screener assessments
- Aggregate reports, roster reports, and individual student reports
- Strengths and weaknesses at the class, school, and district levels by identifying the five items with the highest and lowest scores
- The ability to see actual student work along with the item
- Guidance to teachers to pinpoint gaps in conceptual understanding and areas for further instruction

### Key Features of AIRWays

Each report is available for district, school, teacher, class, or any special roster of students that users want to follow.

Individual student reports and student data files can be generated through an easy-to-use wizard.

Print reports in PDF or export data to Excel or CSV.

See the performance of different sub-groups of students by using the filters.

Breakdown Attributes

Select up to three options.

- Ethnicity
- Enrolled Grade
- IDEA Indicator
- Gender
- English Learner Status

Include unspecified values

Apply Cancel

Users can view all assessments an individual student has taken over time.

Comparison data for the state, district, school, and roster is shown.

The information icon allows users to learn more on performance and scores.

Dashboard > Student Portfolio

Scores and Performance, by Assessment and Test Reason: Student A., 2019-2020

Filtered by: Test Reason: All Test Reasons Year: 2020

Assessment Name	Test Reason	Student Count	Score	Performance	Date Taken
Grade 5 Summative	Spring 2020	1	5498	Proficient	04/15/2020
State Grade 5 Summative	Spring 2020	4,770	5398	42%	--
District Grade 5 Summative	Spring 2020	1,203	5430	48%	--
School Grade 5 Summative	Spring 2020	45	5432	44%	--
My Students Grade 5 Summative	Spring 2020	18	5350	39%	--
Grade 5 Screener	2019-2020	1	n/a	Progressing	11/02/2019

### What will I be able to do in the AIRWays Reporting System?

#### The AIRWays Reporting System allows users to:

- Explore the data underlying the aggregate
- Drill down into progressively smaller groups of students
- Disaggregate the results by content areas
- Track students back in time to examine trends

#### You can also:

- Customize your reports
- Immediately generate your own data files
- Generate PDFs on demand for use in professional development activities

**3****When will I be able to access my students' scores in the AIRWays Reporting System?**

Educators and administrators will be able to access reports and data in the AIRWays Reporting System starting in late September.

**4****Will I be able to access my prior year's data in the AIRWays Reporting System?**

Yes, data for the ELPA Screener (2018-2019) and the ELPA21 Summative (2016-2017, 2017-2018, and 2018-2019) tests are accessible in the AIRWays Reporting System. The ELPA21 Screener score reports from the 2017-18 administration will not be available in AIRWays Reporting. If you are a Test Coordinator or Test Administrator who requires these scores for future reference, please be certain to retrieve them from the ORS before October 31, 2019, when ORS will be permanently retired.

**5****Will the online student report in the AIRWays Reporting System look the same as before? And will I still be able to print student reports in the new system?**

Yes, the online student report will look the same as previously reported in ORS. You will be able to access student reports in the AIRWays Reporting System and can print these reports using the ISR Wizard.

- Teachers can print a single report for one student or generate a batch of multiple reports delivered as a ZIP file.
- Teachers can choose to print student reports in languages the state has chosen to make available.
- The Student Results Generator also allows users to print or export a Student Data File, which is a teacher-friendly data spreadsheet of details from the ISRs and more.

**6****How can I access training resources for the AIRWays Reporting System?**

- The AIRWays Reporting System Quick Guide, training module, and the full AIRWays Reporting System User Guide will be available on the portal in September.
- More details will be available on the portal home page.

**7****If I still have questions about the AIRWays Reporting System and how to access my data, what should I do?**
